

EY's Global Tax Desk Network

EY has over the last 30 years made a significant investment in building a Global Tax Desk Network. It consists of a highly integrated team of more than 200 professionals spanning approximately 45 countries. The purpose of the Tax Desk Network is to enable home-country tax experience to be integrated within other jurisdictions and provide services across several of our tax disciplines from hubs in the United States, Brazil, Europe, and Asia-Pacific and China. The Global Tax Desk Network offers clients a tremendous resource – accessible, timely and integrated tax-planning advice on cross-border investments, providing them worldwide with a forum for information and idea exchange as well as offering cross-disciplinary tax workshops for multinationals. Our Global Tax Desk Network can be contacted at the numbers listed below.
