Unmatched experience and commitment

The oil and gas industry is currently undergoing a period of intense volatility. As an industry looking to grow during constant instability, oil and gas faces major geopolitical, technological and regulatory challenges. Addressing these issues with our clients helps create significant opportunities for their transformation. EY is helping our oil and gas clients globally.

- Moving beyond cost-cutting
- Optimizing portfolios and restructuring
- Completing ongoing major capital projects within budget

Why EY in oil and gas?

EY is one of the world’s leading professional services organizations, committed to doing its part in building a better working world with extensive knowledge and hands-on industry experience.

In a better working world trust increases, capital flows smoothly and investors make informed decisions. Our leadership and presence around the world provide our clients with readily accessible, highly experienced professionals anywhere they conduct business.

EY is a leading auditor of oil and gas companies identified on the Forbes Global 2000, 2015 Fortune 1000 largest US corporations and 2015 Russell 3000 lists.

Market share by oil and gas companies audited Fortune 1000 Largest US corporations

30% EY
24% PwC
18% Deloitte
15% KPMG
13% Other

Our commitment

EY’s global framework for key Processes in Oil and Gas Organizations (POGO), was created in response to the changing dynamics of the oil and gas industry. There is an appetite to fundamentally improve and overhaul business processes to achieve cost savings, and POGO is designed to address the sector’s needs as companies seek these savings.

Digital oil and gas

EY’s digital solutions focus on compression, collaboration and controls to drive ‘above ground’ efficiency enabled by technology to deliver results. EY can also play a vital role in the cyber and information security risk arena helping organizations do more with less without compromising compliance.

Operational excellence

EY’s operational excellence programs focus on continued, measured improvement that systematically address recurrent business issues helping oil and gas companies weather downturns and capitalize on upswings in a measured and profitable way. Visit ey.com/oilandgas/opex for more information.

Capital projects

Delivering capital projects on time and on budget has become increasingly more troubling with the decline in oil price. EY helps manage project and portfolio risk, supporting management on development or decommissioning decisions while advising on performance and stage-gate approval decisions. Visit ey.com/oilandgas/capitalprojects for more information.
